

Township Of Blandford-Blenheim Permit Guide

When do I require a building permit?

Building Permits are required before any construction can begin. The following is a typical list of project that **DO REQUIRE** a building permit:

- Building any detached structure larger than 15m² (161.4ft²)
- Building any addition to a structure
- Uncovered decks higher than 24" from grade
- Covered decks (any height)
- Carports or garages
- Structural alterations
- Bunker silo
- Manure storage facility
- Storage bins and supporting structure
- Demountable structures over 3m above grade

- Interior alterations involving removal or addition of walls or floors
- Moving or lifting a structure from its foundation
- Altering or adding any plumbing
- Demolishing a structure (except for farm buildings)
- Free standing or attached signs
- Installing a woodstove or fireplace
- Demountable stages greater than 60m2

(646ft2) and over 3m above grade

The following projects typically **DO NOT REQUIRE** a building permit:

- Detached structures 15m² (161.4ft²) or less in area
- Uncovered decks 24" or less from grade
- Replacement of windows, doors, roofing or siding
- Repairs to chimneys, porches, decks or roofs
- Demountable structures less than 3m above grade
- Waterproofing repairs to basements
- Replacement of plumbing fixtures
- Replacement of furnace
- Painting and decorating
- Landscaping
- Demountable stages less than 60m2 (646ft2) and less than 3m above grade

NOTE: IF IN DOUBT PLEASE CONTACT TOWNSHIP OFFICE

How do I get a building permit?

In order to get a building permit, you must complete the provided application along with any other forms that have been provided to you. You need to also provide the Township, in duplicate, a complete set of construction drawings including a site plan. Other approvals may be required from agencies such as Grand River Conservation Authority, Upper Thames River Conservation Authority, Oxford County Board of Health, etc.

Explanation of required drawings

Site plan

A site plan is a drawing showing the complete property and identifying all structures in relation to the property boundaries and each other. A property survey is a common template for developing a site plan. The site plan should include:

- Title and scale
- North Arrow
- Street locations and names
- Lot lines and dimensions to all buildings
- Existing and proposed buildings including their areas
- Proposed changes to existing grade if any
- Rights-of-ways and easements
- Access and parking
- Hydro Service to property, if applicable

Floor plans

A floor plan is a drawing of the building showing each floor including basement and crawlspaces from above. Floor plans should include:

- Title and scale
- Use of rooms and spaces (labels)
- Dimensions
- The extent of new proposed construction, including construction in existing structures
- Sizes of all door and window openings

- Cross-section locations and directions
- Material specifications and notes
- Locations of all smoke and carbon monoxide detectors
- All required fire separations
- All floor joist, roof rafter, lintels and beams sizes, dimensions and direction of span

Elevations

Elevations show the exterior of the building from all sides. Each elevation is to be labeled by the direction it is facing, and shall include:

- Title and scale
- Extent of new and proposed construction
- Exterior wall finishes, cladding and flashing
- Dimensioned finished floor levels
- Grade level
- Overall height of structure and roof slopes

Cross-section

A cross-section represents a view of a building along an imaginary line cut through the building in correspondence with the section line drawn on the floor plan. A cross-section illustrates all elements within the walls being cut through and should include:

- · Title and scale
- Details of footings, foundation walls, exterior wall construction including air barrier, floor and roof framing details
- Size and type of materials and finishes
- Dimensioned finished floor levels
- Grade level
- Attic and crawlspace ventilation

Additional drawings and notes

Additional information may be required upon submission for a building permit. For new structures or additions, HVAC drawings and calculations will be necessary for buildings required to be heated. Buildings with engineered floor joist or roof trusses will need to submit engineered designs with an engineer seal on them. MDS 1 and/or 2 may be required, dimensions to be confirmed by OLS, if required by Chief Building Official. For drawing formats the Township accepts architectural and structural drawings to be drawn in either imperial or metric measurement. All drawings must conform to the Ontario Building Code, the Township of Blandford-Blenheim by-laws and any other applicable law.

Inspection Requests

The building permit applicant or property owner must call the Township of Blandford-Blenheim for inspections at the different stages of construction. Required inspections will be marked on your permit form and they typically include:

- Footings
- Foundation
- Framing
- Insulation and vapour barrier
- Air barrier
- HVAC
- Plumbing
- Final/occupancy

To book a building inspection you must notify the Township a minimum of 24 hours in advance.

COMMITMENT TO GENERAL REVIEWS BY ARCHITECT AND ENGINEERS

PART A - TO BE COM Project Description:	PLETED BY OWNER				Permit Application No.
Address of Project:					Municipality:
WHEREAS the Ontario Building Code requires that the project described above be designed and reviewed during construction or demolition by an architect, professional engineer or both that are licensed to practice in Ontario, and WHEREAS Ontario Law prohibits the construction or demolition of a building if a permit has not been issued to authorize it, and WHEREAS Architects and engineers are prohibited by law from undertaking reviews if a permit has not been issued, NOW THEREFORE the Owner, who intends to construct or demolish or have the building constructed or demolished, hereby confirms that: 1. The undersigned architect and/or professional engineers have been retained to provide general reviews of the construction or demolition of the building to determine whether the work is in general conformity with the plans and other documents that form the basis for the issuance of a permit, in accordance with the performance standards of the Ontario Association of Architects (OAA) and/or Professional Engineers Ontario (PEO); 2. All general review reports by the architect and/or professional engineers will be forwarded promptly to the Chief Building Official; 3. Should any retained architect or professional engineer cease to provide general reviews for any reason during construction or demolition, the Chief Building Official will be notified in writing immediately, and another architect or engineer will be appointed so that general review continues without interruption; and 4. Construction or demolition will only be undertaken if an architect and/or professional engineers are retained to undertake general review, and a permit authorizing the proposed construction or demolition has been issued. The undersigned hereby certifies that he/she has read and agrees to the above
