INDEPENDENT AUDITOR'S REPORT

To the Members of Council, Inhabitants and Ratepayers of the Township of Blandford-Blenheim

Opinion

We have audited the accompanying financial statements of Township of Blandford-Blenheim (the "Township"), which comprise the Statement of Financial Position as at December 31, 2022, and Statements of Operations and Accumulated Surplus, Cash Flows and Change in Net Financial Assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Township of Blandford-Blenheim as at December 31, 2022 and its financial performance and its cash flows and change in net financial assets for the year then ended in accordance with Canadian public sector accounting standards.

Basis of Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Township in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Township's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless management either intends to liquidate the Township or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Township's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Township's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Township to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**TOWNSHIP OF BLANDFORD-BLENHEIM
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022**

The Corporation of the Township of Blandford-Blenheim (the Township) is a lower-tier Township in the Province of Ontario, Canada. It conducts its operations guided by the provisions of provincial statutes such as the Municipal Act, Municipal Affairs Act and related legislation.

1. Significant accounting policies

The financial statements of the Township are the representation of management prepared in accordance with Canadian public sector accounting standards.

The focus of these financial statements is on the financial position of the Township and changes thereto. The Statement of Financial Position reports financial assets and liabilities. Financial assets are available to provide resources to discharge existing liabilities or finance future operations. Net financial assets represents the financial position of the Township and is the difference between financial assets and liabilities. This information explains the Township's overall future revenue requirements and its ability to finance activities and meet its obligations.

a. Reporting entity

These statements reflect the financial assets, liabilities, operating revenue and expenditures and accumulated surpluses and changes in investment in tangible capital assets of the Township and all committees of Council.

b. Trust funds

Trust funds and their related operations administered by the Township are not consolidated, but are reported separately on the Trust Fund Statements.

c. Revenue recognition

Revenue is recognized when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured. Government grants and transfers are recognized in the financial statements as revenue in the period in which events giving rise to the transfer occur, providing the transfers are authorized, any eligibility criteria have been met, and reasonable estimates of the amounts can be determined.

d. Non-financial assets

Non-financial assets are not available to discharge existing liabilities and are held for use in the provision of services. They have useful lives extending beyond the current year and are not intended for sale in the ordinary course of operations. The change in non-financial assets during the year, together with the excess of revenue over expenditures, provides the Change in Net Financial Assets for the year.

**TOWNSHIP OF BLANDFORD-BLENHEIM
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022**

1. Significant accounting policies continued

e. Tangible capital assets

Tangible capital assets are recorded at cost which includes all amounts that are directly attributable to acquisition, construction, development or betterment of the asset. The cost, less residual value, of the tangible capital assets are amortized on a straight-line basis over their estimated useful lives as follows:

Buildings and structures	15 to 40 years
Fleet	8 to 30 years
Machinery, equipment, furniture and fixtures	5 to 25 years
Infrastructure - transportation	15 to 50 years
Infrastructure - drainage	80 years
Bridges and other structures	30 to 80 years
Streetlights	25 years

Amortization is charged for a half year in the year of acquisition and in the year of disposal.

The Township has a capitalization threshold of \$5,000 so that individual assets of lesser value are expenses unless they are pooled because collectively they have significant value.

i. Leases

Leases are classified as capital or operating leases. Leases which transfer substantially all of the benefits and risks incidental to ownership of property are accounted for as capital leases. All other leases are accounted for as operating leases and the related lease payments are charged to expense as incurred.

ii. Contributions of tangible capital assets

Tangible capital assets received as contributions are recorded at their fair market value at the date of receipt. The fair value is also recorded as contributed revenue.

f. Short-term investments

Short-term investments are recorded at cost. Market value approximates cost.

g. Deferred revenue

Grants, contributions and other amounts are received from third parties pursuant to legislation, regulation or agreement and may only be used in the conduct of certain programs, in the completion of specific work, or for the purchase of tangible capital assets. In addition, certain user charges and fees are collected for which the related services have yet to be performed. Revenue is recognized in the period when the related expenditures are incurred, services performed, or the tangible capital assets are acquired.

h. Financial instruments

Financial instruments of the Township consist mainly of cash, accounts and taxes receivable. The carrying values of these financial assets approximate their fair values unless otherwise disclosed.

i. Use of estimates

The preparation of financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenditures during the period. Actual results could differ from these estimates.

j. Budget

The Township's Council completes separate budget reviews for its operating and capital budget each year. The approved operating budget for 2022 is reflected on the Statement of Operations and Accumulated Surplus. For capital spending, budgets are set for individual projects and funding for these activities is determined annually and made by transfers from surplus funds and by application of applicable grants or other funds available to apply to capital projects.

2. Trust funds

Trust funds administered by the Township amounting to \$224,393 (2021 - \$218,813) have not been included in the Statement of Financial Position nor have their operations been included in the Statement of Operations and Accumulated Surplus.

The Township does not own any short-term investments.

4. Pension agreements

The Township makes contributions to the Ontario Municipal Employees Retirement Fund (OMERS), which is a multi-employer plan, on behalf of members of its staff. The plan is a defined benefit plan which specifies the amount of the retirement benefit to be received by the employees based on the length of services and rates of pay. The amount contributed to OMERS for 2022 was \$169,466 (2021 - \$163,245) for current service and is included as an expenditure on the Statement of Operations and Accumulated Surplus. The Township had no obligation, as of December 31, 2022, under the past service provisions. The OMERS funding ratio for 2022 is 95.0% (2021 - 97.0%).

Good Evening Rodger and Township Council,

My name is Tracy Litt and I am a resident of Bright. I look forward to meeting you as the delegate at the Council meeting on June 7, 2023.

My husband and I are members of the Great Lakes ATV Club which is a local club and a proud member of the Ontario Federation of ATV Clubs. There is an ATV Trail on private land known as the Innerkip Trail however the Trail Heads are in Blandford-Blenheim Township. We are asking Township Council to consider amending the current By-Law Number 2278-2021 to allow access to Township Roads within Blandford-Blenheim. Section 191.8(3) of the Highway Traffic Act, R.S.O. 1990, c. H.8 (as amended) authorizes Municipalities to pass a by-law permitting the operation of Off-Road Vehicles on any roadway that is under the jurisdiction of the Municipality or on any part or parts of such a roadway.

I have attached a PowerPoint presentation and the On road riding poster in this email and will send some follow up documents in subsequent emails as the files are large.

Please reply with acceptance of each email.

Best Regards,
Tracy Litt

PURPOSE/REQUEST

ORV – Off-Road Vehicle – Includes ATV's, UTV's (Utility Terrain Vehicles) and Side by Sides

- The purpose of this presentation to Township Council of Blandford-Blenheim is to request an amendment to the current by-law 2278-2021 allowing **ROAD ACCESS to ORVs** within our Township.

BENEFITS TO COMMUNITY

- Provide a family-oriented activity where all family members can participate in an exciting and fun outdoor activity
- Expose local businesses and tourism through QuadOn and google maps in Drumbo, Plattsville, Princeton, Bright and neighbouring communities.
- Economic development through an increase of local economic activity with ATV participants and visitors, spending dollars for gas, food and lodging at local businesses.

OUR LOCAL CLUB

- The Great Lakes ATV Club is a proud member of Ontario Federation of ATV Clubs (OFATV), is a not-for-profit organization established in 2003 that builds and maintains trails in Oxford County and Brant Counties, allowing ATV riders to take in the amazing scenery this area has to offer. With our team of dedicated volunteers, we currently monitor trails located on private land, varying from beginner to intermediate trails.
- The GLATV Club has charity rides to support our community such as the Ride for Fire which raised funds last year for the Bright Fire Department. We have participated in the Bright Santa Clause Parade and would like the opportunity to participate in other events within the Blandford Blenheim Township.
- With Road Access, we could promote more charity events in the future and save the parking lot at the trail for those travelling from out of town. The locals would be able to drive to the trail system legally and be bound by the by-law and HTA Regulations.

ONTARIO HIGHWAY TRAFFIC ACT

- Section 191.8 provides authority for municipalities to regulate the use of ORVs/ATVs on roads within the municipality with the reaction of a bylaw.

Wellington County council has approved a bylaw to permit use of off-road vehicles on county roads. Metro Creative Graphics image

GUELPH – Off-road vehicles (ORV) are now permitted on all Wellington County roads.

A bylaw permitting the use of ORVS on roads owned by the county was approved by county council on March 31.

The approval comes at the recommendation of the county’s roads committee, which directed staff to draft an ORV bylaw after considering a report from county engineer Don Kudo at the March 8 committee meeting.

All lower-tier municipalities in Wellington already allow ORVs on municipal roads, with the Town of Erin being the last to approve the practice in November.

Centre Wellington, Wellington North, Mapleton and Puslinch have no restrictions for ORV use.

Guelph Eramosa, Minto and Erin have some restrictions with respect to time of day and location for ORV use in their jurisdictions.

“With the committee’s direction to roads staff to provide a bylaw to allow ORV use on county roads, it would appear that the most consistent and simplest approach would be to allow ORV use on all county roads without time and location restrictions,” stated Kudo in a staff report.

Roads committee chair councillor Andy Lennox said most of the committee’s discussion on March 8 centred around making sure any bylaw was “as practical and easy to enforce” as possible for the Wellington OPP.

“We’re recommending allowing off road vehicles on county roads, without any further restriction, just to make it as simple and stable across the entire county as we possibly can,” Lennox stated.

Councillor Dave Anderson asked for the resolution regarding ORVs to be considered separately from other elements of the roads report.

“The only concern about this proposal is that we indicate that it’s going to be on *all* county roads,” Anderson stated.

“I have a little bit of a safety concern about some of the major routes in the County of Wellington.”

He added, “One road that that I’m very familiar with is (Wellington Road) 109, which comes straight through Harriston. It’s a very, very busy road.

“The traffic is so wicked there that you’re actually going to have three lanes of traffic on that road. And I can’t see it.

“It’s a safety issue. And I really have a concern about opening it to county roads.”

Anderson asked if there had been a report focusing on safety concerns.

“The previous reports have dealt with safety,” Lennox replied.

The resolution to accept the report directing staff to prepare a bylaw to allow ORVs on county roads was approved, with Anderson and councillor Campbell Cork opposed. Councillors George Bridge and Gregg Davidson were absent.

The bylaw was approved later in the meeting.

Dear Premier:

RE: School Bus Stop Arm Cameras

The Council of the Corporation of Tay Valley Township at its Council meeting on April 25th, 2023, adopted the following resolution:

RESOLUTION #C-2023-04-30

"WHEREAS, almost 824,000 students travel in about 16,000 school vehicles every school day in Ontario and according to the Ministry of Transportation's statistics the rate of vehicles blowing by stopped school buses is over 30,000 times every day;

AND WHEREAS, the Province of Ontario passed the Safer School Zones Act in 2017 which authorized the use of Automated School Bus Stop Arm Camera Systems to detect incidents where vehicles failed to stop when the school bus was stopped and the stop-arm extended (O.Reg. 424/20);

AND WHEREAS, the Association of Municipalities of Ontario (AMO) working on behalf of all Ontario Municipalities made its submission to the Standing Committee on General Government on May 21, 2019 in support of Administrative Monetary Penalties (AMPs) to be used to collect fine revenue for school bus stop arm infractions and other applications, including Automated Speed Enforcement (ASE) technologies deployed in school and community safety zones;

AND WHEREAS, police resources can not be spread any thinner to enforce Highway Traffic Act offences throughout municipalities;

AND WHEREAS, the administrative and financial costs to establish the required municipal Administrative Penalty program under the Highway Traffic Act, and its regulations, are substantial and maybe out of reach for small or rural municipalities that have insufficient amounts of traffic to generate the required funds to offset the annual operational costs of a municipal Administrative Penalty program;

NOW THEREFORE BE IT RESOLVED THAT, the Council of the Corporation of Tay Valley Township urges the Provincial Government to:

- a) Require all school buses to have stop arm cameras installed and paid for by the province for the start of the 2023-2024 school year and;

Hello Mayor and Councillors,

Last year I approached council with a proposal to paint a rainbow crosswalk to commemorate June as Pride month and to show solidarity with the LGBTQ+ community. Council approved the idea and we painted a crosswalk at the intersection of Pinkham and Centre Streets in Drumbo. What I thought would last for a month stood up quite well under the elements and is still visible today but it's faded.

I'm writing to ask permission and support from council to repaint the crosswalk and give it a fresh coat of paint for this June. If you have any questions please let me know, or if you would like me to do a presentation before council I would be happy to do so.

Thanks,
Ken Whytock

Proposed Resolution of Support Endorsed by the Safe & Well Oxford Steering Committee:

WHEREAS the homelessness crisis is taking a devastating toll on families and communities, undermining a healthy and prosperous Ontario;

WHEREAS the homelessness crisis is the result of the underinvestment and poor policy choices of successive provincial governments;

WHEREAS homelessness requires a range of housing, social service and health solutions from government;

WHEREAS homelessness is felt most at the level of local government and the residents that they serve;

WHEREAS municipalities and local social service providers are doing their part, but do not have the resources, capacity or tools to address this complex challenge; and,

WHEREAS leadership and urgent action is needed from the federal and provincial government on an emergency basis to develop, resource, and implement a comprehensive plan to prevent, reduce and ultimately end homelessness in Ontario.

THEREFORE BE IT RESOLVED THAT Council of the Township of South-West Oxford call on the federal and provincial governments to urgently:

- i. Acknowledge that homelessness in Ontario is a social, economic, and health crisis;
- ii. Commit to ending homelessness in Ontario;
- iii. Work with Association of Municipalities of Ontario (AMO) and a broad range of community, health, Indigenous and economic partners to develop, resource, and implement an action plan to achieve this goal.

AND FURTHER THAT a copy of this motion be sent to the Minister of Municipal Affairs and Housing; the Minister of Children, Community and Social Services; the Minister of Health, the Minister of the Solicitor General, MPP Ernie Hardeman, MP Dave MacKenzie; to the Association of Municipalities of Ontario; County of Oxford and all area municipalities.

Proposed Resolution of Support Endorsed by the Safe & Well Oxford Steering Committee:

WHEREAS the Township of recognizes that challenges of mental health, addictions, specifically opioids, and homelessness are complex issues that have a significant and detrimental impact on the residents of the County of Oxford and surrounding areas within Ontario;

WHEREAS addressing and responding to these issues has placed extreme stress on all levels of municipal and non-municipal programs and services, including various not-for-profit organizations and provincially funded health services within the County of Oxford and surrounding areas;

WHEREAS mental health, opioids and homelessness trends are, in recent years, at an all-time high and such prevalence is impacting the overall well-being of the people of the County of Oxford and surrounding areas;

WHEREAS Council acknowledges that approaches to addressing and responding must include diverse and inclusive approaches to these issues, and should not be viewed as a single solution response;

WHEREAS addressing and responding will require strategies and practices specific and uniquely designed for the County of Oxford and surrounding communities;

WHEREAS Council accepts that the responsibility to address these challenges rests with community stakeholders, partners, residents, as well as federal and provincial governments and agencies;

WHEREAS challenges of mental health, addictions and homelessness are not unique to the County of Oxford and surrounding areas within Ontario;

NOW THEREFORE BE IT RESOLVED THAT Council provide direction to staff to send a letter to the Minister of Municipal Affairs and Housing; the Minister of Children, Community and Social Services; the Minister of Health, the Minister of the Solicitor General, MPP Ernie Hardeman, MP Dave MacKenzie; to the Association of Municipalities of Ontario (AMO), Rural Ontario Municipal Association (ROMA); County of Oxford and all area municipalities advocating for additional resources to combat the opioid crisis in Ontario.

Community Fun day

Plattsville Park

June 17

Dear Mayor Mark Peterson and Blandford-Blenheim Township Council Members

The community members and Plattsville Lions club are hosting a community fun day at the Plattsville Park, which includes a BBQ, Car tractor show, family games, grand opening of splash pad, water fun with the fire department. We would like to hold a licensed beer garden at this event around the pavilion with a temporarily fenced in area. We respectfully request Council's permission to hold this event of "municipal significance" at the Plattsville Park on June 17 2023. This event is a fun way for the community to get together, well also raising funds for the accessible rubber flooring. The Licensed beer garden will be under Trails Edge, which will also provide the township with adequate liability insurance. Trails edge is using there catering licensed and insurance for this event. All profit raised from the beer garden will go towards the accessible flooring project.

Once provided with written consent from Council, we will be applying for a liquor licence for the beer garden and obtaining adequate liability insurance for the event.

Please send written consent to trailsedge@live.ca. If you have any questions please email trails edge.

Thanks

STEERING COMMITTEE MEETING MINUTES

Thursday, April 20th, 2023

9:00 a.m. to 11:00 a.m.

Oxford County Administration Building

Room 222

1. Welcome and Introductions

Members of the Committee introduced themselves and commented on their goals and priorities as they relate to the Safe & Well Oxford Plan. It was noted and discussed that the Safe & Well Oxford Plan has the potential to do great good; however, the mandate is new and large and there will be a need to stay focused on the role of the Committee in terms of providing support to partner committees and agencies working towards the goals and objectives of the Safe & Well Oxford Plan. The Committee discussed the need to share and promote the work that is taking place from partner tables and committees within Oxford. The goals and objectives will need to be looked at and updated as the Committee moves along through implementation and has the opportunity to connect with other supporting networks and stakeholders.

2. Selection of Committee Chair

The Committee selected Children's Aid Society Executive Director Tina Diamond as the Chair for the committee for 2023.

3. Review of Agenda (feedback/additions to agenda)

There were no additions to the agenda.

4. Review Safe & Well Oxford Steering Committee Terms of Reference (attached)

The Committee reviewed the Terms of Reference and it was noted that meetings will be open to the public. The [Safe & Well Oxford](#) website will need to be updated so that agendas and minutes can be shared publicly online.

5. Review Summary of Objectives and Goals of the Safe & Well Oxford Plan (attached)

The Committee discussed and reviewed the goals and objectives in the Safe & Well Oxford Plan. The following comments and action items were made:

- There is a need for the Committee to understand who the stakeholders are in relation the Safe & Well Oxford Plan. There are many organizations, committees and tables that are working towards the goals and objective of the plan. The Committee provided direction to develop a stakeholder list and identifies which priority area each is focused on – Julie will bring a draft stakeholder list back to the Committee for review and input based on organizations and agencies that were consulted during the development of the Safe & Well Oxford plan.
- Discussion took place in relation to the challenges with getting into schools within the County for education and awareness presentations and campaigns (i.e. Southwestern public Health, OPP, Woodstock Police Services have education and awareness presentations and campaigns available for students). As a Steering Committee – can we bring this to the attention of the school board and source education and awareness programs that are available for students? What are some of the programs that can be offered if we can get into the schools? Real life stories are valuable and impactful.
- Data collection, tracking and monitoring was discussed. It will be important for the committee to consider data as we move forward to measure the progress and success of the Safe & Well Oxford Plan.
- The Committee provided direction to support staff to prepare a media release for the public and all stakeholders in relation to next steps of the Safe & Well Oxford plan implementation and direction on connecting with external stakeholders/committees/tables that will provide information and input to the steering committee. There is a need to understand what their current priorities and challenges are.
- The County of Oxford (Ayesha Sajid) is working on the development of a County wide Diversity, Equity and Inclusion Committee. It is anticipated that recruitment for the committee will begin in May.

OXFORD COMMUNITIES

Oxford County municipalities approve and endorse Safe and Well Oxford Plan and establish Steering Committee

Safe and Well Oxford aims to create communities where individuals and families feel safe, supported and included and where they can access what they need, when they need it, to live life fully

May 31, 2023 – The Safe and Well Oxford Plan, Oxford’s roadmap for building safe and inclusive communities, is taking a key step forward with the endorsement of all nine municipal councils and the appointment of an inaugural Steering Committee.

In February 2023, Oxford County Council approved both the terms of reference and the recommended appointments to the Safe and Well Oxford Steering Committee, through to the end of the current Council term on November 15, 2026. A new Steering Committee will be appointed by the new Oxford County council for the subsequent council term.

The Safe and Well Oxford Steering Committee comprises individuals who played a key role in the development of the plan, drawing from local police services, health care organizations and providers, school boards, businesses, social service providers, agencies and more.

The Steering Committee will be working diligently over the next six months to establish a strong foundation in which it can effectively support and guide the Action Coalitions, the Plan’s issue-specific sub-committees, as they work to meet the goals and objectives of the Plan.

“Our hope for this plan is to help create safer, healthier and more vibrant communities across Oxford, which is more important today than ever before” says Oxford County Warden Marcus Ryan. “Ongoing community engagement, education, awareness and participation is critical to the successful implementation of the Safe & Well Oxford Communities Plan.”

A key task for the Steering Committee will be to gather data and metrics that will subsequently be used to measure the accomplishments achieved throughout the community. Also key to the success of this Plan will be maintaining effective communication and partnerships with all community stakeholders, local municipalities and residents as the Steering Committee moves forward to accomplish goals and objectives detailed within the plan.

Representatives of the Safe & Well Oxford Steering Committee will be reaching out to key stakeholders in the coming weeks to schedule meetings and consultation in relation to the goals and objectives of the Safe & Well Oxford plan, and discuss how the steering committee may best support them in achieving their goals and the goals established in the Safe & Well Oxford plan.

“Helping to ensure that members of our community feel safe doesn’t begin and end with law enforcement. The way in which we respond to people facing complex needs, such as mental health challenges, addictions and lack of secure housing, impacts the safety and wellbeing of both individuals and community,” says Township of South-West Oxford Mayor David Mayberry. “Through the work of the Safe & Well Oxford Steering Committee, we hope to come together as a community with shared common goals to find ways to best support the organizations within our community that are providing these necessary supports.”

Safe and Well Oxford Steering Committee meetings are open to the public at the Oxford County Administration Building in Woodstock. Upcoming meetings, agendas and minutes will be posted on the [Safe and Well Oxford website](#).

Background

In September, 2020 municipalities across Oxford County, launched a planning process to develop a shared Community Safety and Well-being Plan, Safe and Well Oxford, in response to the requirements of the Police Services Act. The planning process was spearheaded by a multi-sectoral Advisory Committee made up of representatives from across Oxford, including police and emergency services, health care, mental health and social services, school boards and community service providers.

Throughout 2020, more than 1,400 members and front-line service providers from across Oxford shared their ideas about how to address priority risks and improve the safety and well-being of their communities. Safe and Well Oxford truly reflects the multitude of diverse voices the committees heard from and sets out the plan for how government, service providers, residents and businesses can work together to address the root causes of the most complex social issues Oxford communities face. Although there are many areas that influence the safety and well-being of communities, the four priority risks that Safe and Well Oxford will address through a social development and prevention lens are:

- Mental Health
- Affordable Housing
- Substance Misuse
- Equity, Diversity and Inclusion

Safe and Well Oxford establishes goals and objectives to address Oxford’s priority risks. It asks all local municipalities, service providers, residents, businesses and more to step forward and work together to achieve our shared vision of community safety and well-being. Please visit

safeandwelloxford.ca for full details of the Plan and how we can work together to create a more vibrant and safe community.

Safe and Well Oxford has received very positive support and endorsement from all Oxford municipal Councils and Oxford County. Implementation of this Plan will be a shared responsibility across the County and include community members and local representatives to improve the overall well-being for our residents.

About Safe and Well Oxford

Capital

- Gobles CN Bridge – I have spoken to Robert from CN. The initial plan has been completed and are working on the layout. There have been some initial snags with the design layout in regards to speed and truck traffic. The Bridge contractor has committed to getting it completed this year. No time line has been set; the hope is early fall.
- Princeton Pond Expansion project – The pond is moving along quite well, the forebay is completed along with most of the main pond. Now that spring gravel and dust control is completed, we will start moving some soil off the site.
- Princeton Road Construction – GHN has completed the main truck up McQueen St. and are now working on the street branches. Construction is moving along well and GHN have been good to work with.
- Princeton Drain Crossing – Staff and KSmart have been working with CN to obtain locates so we can book the CN Flagging. We have been told that the locates have been done, although we still have not seen any paperwork to this affect. The hope is to do our land surveying and monitoring in July with the pipe bore being done in August.
- The Tender for the Roadside Maintenance machine is currently out and results will be brought to council on June 21st.

County Shared Service/Road Association/Training

- Shared Services meeting – The service sharing committee met at the Norwich office in May. We discussed the Book 7 training that was completed, discussed ideas for the fall winter refresher training and discussed the next 2 years leading up to the 2025 AORS Trade Show.

- Road Association – We will be sending a delegation to the 2023 AORS Trade show in Strathroy. Our next events will be our fall meeting and the Safety Truck Rodeo in September.
- AORS – The AORS Trade show is being held June 7th & 8th in Strathroy, admittance is free. Let me know if you want to attend and I can register you. Next AORS event is our June workshop and Board meeting in Barrie.

Other

- May is always a busy month. We start our spring gravel application and work on getting the dust control on all the gravel roads. During this process we have 3 graders, 3 trucks with water tanks, the tractor pulling the packer, someone working with the calcium trucks and the supervisor working with the gravel trucks to ensure the proper amounts are being applied and checking the quality of the gravel. The gravel quality has been good and we have had a good catch with the dust control, the Township roads are in good shape.
- Had a conversation with a resident from Township Road 12 between Blenheim Rd & Trussler Rd. who said he was representing the people who live on the road. They would like council to move up the hard surfacing of this section of road. This section is currently in the 10-year capital plan for 2029. The group says they were promised that the road would be completed 15 years ago and with the gravel pit being so active they want it done now. If it was completed, they would not have to pass the gravel pit and the dust it creates and the mud on the road from the trucks exiting, they would be able to go out to Trussler.
- Attending by-weekly progress meetings with KSmart & GHN in Princeton.
- Attending by-weekly progress meetings for the Cressridge subdivision.
- Met with suppliers to discuss prices for 2023 budget and availability.
- Coordinated the construction of the Romano storm water pond site in Princeton.
- Working with the Drainage Superintendent on finding suitable dump sites for the excess soil from the Princeton Drain project.
- Staff has been attending construction site meetings in Princeton and Plattsville.
- Working with KSmart and Drainage Superintendent on the next phases of the Princeton project.
- Staff is continuing to meet with land owners at outdoor sites to discuss ditch or road issues.

And further that Scrimgeour & Company CPA Professional Corporation be appointed as Auditor for the Township of Blandford-Blenheim for 2023 to 2027 at the rate of \$25,500 plus HST for 2023 with inflationary increases for the years 2024 to 2027, based on CPI.

Background:

Scrimgeour & Company have provided audit services to the Township since 2008. In 2018, the Township issued an RFP for Audit Services and received 3 proposals. The proposal from Scrimgeour & Company was the lowest cost and provided the most staff hours.

Analysis / Discussion:

Scrimgeour & Company has demonstrated a high level of professionalism and commitment to the Township of Blandford-Blenheim since 2008. The annual audit has been completed on a timely basis, at an annual fee that is very reasonable, with little disruption to administrative staff. Scrimgeour & Company has proven to be an effective and efficient auditor for the Township.

Attached is a letter from Scrimgeour & Company, proposing an extension of their contract at a rate of \$25,500 plus HST for 2023, with inflationary increases based on CPI for the years 2024-2027. The rate in the previous extension was \$22,000 plus HST for 2018, with an inflationary increase based on CPI which resulted in an average increase of 2.5% and a rate of \$24,280 plus HST for 2022.

Scrimgeour & Company has extensive experience auditing for similar size municipalities including the Township of Zorra, Township of South-West Oxford and the Municipality of Thames Centre. They also have significant experience in Oxford County, including the County itself, giving them an understanding of the relationship between the upper and lower tier in Oxford County. Accordingly, it is recommended that Scrimgeour & Company CPA Professional Corporation be appointed as Auditor for the Township of Blandford-Blenheim for 2023 to 2027.

Ms. Denise Krug, Director of Finance/Treasurer
The Corporation of the Township of Blandford-Blenheim

Dear Ms. Krug:

We are pleased to submit our proposal for the audit of The Corporation of the Township of Blandford-Blenheim ("the Township") for the years ending December 31, 2023 to 2027. We view the Township as a valuable client and would continue to provide you with the exemplary service provided as your auditors since 2008. Our best reference is our current service to the Township. If you require further references, we are happy to provide those.

We have over thirty-five years of municipal audit experience. Currently, we audit eleven other municipalities as well as several other non-profit organizations. We have established our firm professionally in the municipal field, which enables us to provide the Township with an audit team who is efficient and experienced. Our firm is knowledgeable about the issues currently facing Municipalities in Ontario. We are committed to providing our clients with consistency from staff assigned to the audit. We are also committed to being at our clients' offices while the audit is in process to ensure the minimum amount of disruption to our clients' staff.

Our fee for 2022, which was tendered in 2018, was \$24,280. We are proposing an audit fee of \$25,500 for the 2023 audit and preparation of the Consolidated Financial Statements and completion of the FIR. This is an inflationary increase only. We would increase the fee for the years 2024 to 2027 by inflationary increases only based on CPI. HST would be added to these amounts.

Any additional work would be approved by the Township in advance. We will absorb all out-of-pocket expenditures including travel.

We are available to meet with staff and/or Council at your convenience, should you wish to discuss any part of this proposal.

Sincerely,

Report #: CAO-23-10

From: Rodger Mordue, CAO/Clerk
Date: May 29, 2023
Council Meeting Date: June 7, 2023

Recommendation:

That report CAO-23-10 be received as information; and,

That no action be taken with the request to amend the Township's animal Control By-law to alter the list of animals prohibited from being kept in the Township of Blandford-Blenheim.

Background:

At the May 17, 2023 meeting of Council a delegation was heard requesting that Council consider amending the animal control by-law to allow for the keeping of ball pythons within the township. Currently by-law 2275-2021 prohibits the keeping of all snakes of the "families pythonidae and boidae" in the township. Ball pythons belong to the Pythonidae family.

Analysis/Discussion:

A request has been received to alter the township animal control by-law to allow for the keeping of ball pythons. The following wording is contained in our current by-law:

"No person shall keep, or permit the keeping of an animal or animals of any of the following classes anywhere within the Township of Blandford-Blenheim:

- a) All marsupials (such as kangaroos and opossums)*
- b) All non-human primates (such as gorillas and monkeys)*
- c) All felids, except the domestic cat*
- d) All canids, except the domestic dog*
- e) All viverrids (such as mongooses, civets, and genets)*
- f) All mustelid, except the ferret (such as skunks, weasels, otters and badgers)*
- g) All ursids (bears)*

-
- h) *All artiodactylus ungulates, except the domestic buffalo, deer, cattle, goats, pigs and sheep*
 - i) *All procyonids (such as raccoons, coatis and cacomistles)*
 - j) *All hyenas*
 - k) *All perissodactylus ungulates, except the domestic horse and ass*
 - l) *All elephants*
 - m) *All pinnipeds (such as seals, fur seals, and walruses)*
 - n) *All snakes of the families pythonidae and boidae*
 - o) *All venomous reptiles and amphibians*
 - p) *All diurnal and nocturnal raptors (such as eagles, hawks and owls)*
 - q) *All edentates (such as anteaters, sloths and armadillos)*
 - r) *All bats*
 - s) *All crocodilians (such as alligators and crocodiles)*
 - t) *All arachnids (such as tarantulas)”*

This list is similar in all municipalities in Oxford County as well comparable wording appears in animal control by-law's in the nearby Counties of Brant and Norfolk and in the City of Brantford.

Staff has found alternate wording in the by-laws of some other near by municipalities which would permit ball pythons. When dealing specifically with snakes some municipalities in Waterloo Region state that it is prohibited to keep snakes that are venomous or snakes that reach an adult length greater than 3 metres. In the case of ball pythons they are not venomous and they do not normally grow to a length of 3 metres so they would be allowed in those municipalities.

The Township- shares by-law enforcement with other municipalities in the County. Currently all of our by-laws are similar. Staff are recommending that they remain that way and that no changes be made to the Township's Animal Control by-law

Recommendation:

That report CAO-23-09 be received; and,

That Council direct staff to prepare a by-law to adopt the comprehensive 2023 Employee Manual.

Background:

The Township' Employee Manual is the comprehensive policy that guides Human Resources issues in the Township. It contains many Township related policies as well as Provincial policies that employers are mandated to have. The last time there was in in-depth review of the policy was in 2011. Although there have been amendments to it over the years as legislation changed, staff felt it was time to take all of those amendments and consolidate them into one comprehensive policy manual.

Analysis/Discussion:

The last in-depth review of the Township's employee manual was done in 2011. Since then there have been a number of alterations and additions to the manual. Staff has taken all of those changes and incorporated them into the attached policy. Staff also consulted HR Downloads which is the company we use to help us keep up to date with Human Resources policy changes. They were able to provide us with templates for policies that we are legislated to have as well as employment related policies that are considered "best practice". While every attempt has been made to include policies that are mandated by legislation we have included a provision stating that the policies in the manual are subject to and are superseded by federal, provincial or territorial laws.

A number of the changes and additions included in this policy are there to provide more clarity to the employee on their employment relationship with the Township. The following is an overview of the proposed manual highlighting the changes from the previous manual:

Section	Title	Change Highlights
3	Recruitment	Provides more clarity on the process the Township will follow when advertising and recruiting new employees.
7	Hours of Work	This section now recognize the compressed work-week policy that the Township implemented in 2021
9	Disconnecting from Work	Provincial legislation required each employer to have a policy in place. Our existing policy was adopted in 2022 and has now been incorporated into the comprehensive manual
11	Protected leave of absence	Protected LOA's that were not in the previous manual are: Parental Leave; Family Responsibility; Family Caregiver; Critical Ill Child Care; Crime-Related Child Death and Disappearance; Declared Emergency and Infectious Disease Emergency; Reservist; Organ Donor; Domestic and Sexual Violence
12	Pay Equity and Salary	Incorporates our existing policy into the comprehensive manual.
14	Return to Work	Incorporates our existing policy into the comprehensive manual.
18	Scent Free Workplace	While not an issue today a policy should be in place in case it becomes an issue in the future.
19	Smoke Free Workplace	Provincial legislation.
24	Employee Complaints and Conflict Resolution	This section has been expanded to provide greater clarity on the process
26	Record Retention and Personnel Files	To provide clarity on what the Township does with information collected.
30	Human Rights	Highlighting some of the responsibilities under the legislation
31	AODA Integrated Accessibility Standards	Highlighting some of the responsibilities under the legislation
32	AODA Employment Standards	Highlighting some of the responsibilities under the legislation
36	WHMIS	Highlighting some of the responsibilities under the legislation

The Township supports and encourages flexibility in employee work arrangements and scheduled hours of work whenever it is possible and practical to do so without compromising the efficiency and effectiveness of the Corporation.

Where operationally feasible, this policy applies to permanent full-time employees who have successfully passed their probationary period. Flextime is a variable work schedule, in contrast to traditional work arrangements requiring employees to work a standard workday. A typical flextime arrangement is altering starting or quitting times.

The following principles shall be applied when considering a flex time arrangement:

- An employee may request time off in exchange for working additional hours at another time.
- Requests for flex time must be approved by the employee's supervisor before the employee takes the time off or works this additional time if the additional time is to be worked before the time off.
- Requests for flex time must be in writing, stating:
 - (a) The dates and times that the employee is requesting time off.
 - (b) The dates and times that the employee is prepared to work the additional hours in consideration of the time off.
- The time off will be exchanged on an hour for hour basis with the additional hours worked.
- Where possible, flex time taken is to be made up within the same two-week pay period or the following two-week pay period.
- Flex time is not to be accumulated (banked) for future use that has not been pre-approved.
- Flex time used to compress the standard work week will be considered on a case-by-case basis. Under a compressed schedule arrangement, employees work a longer work

day in exchange for a reduction in the number of working days in a defined cycle

- Flex time can be used by regular full-time employees to compile the necessary hours needed for the shut down over Christmas/New Years.
- All time must be marked on the employee's time sheet in no less than 30-minute intervals.
- All Flexible Work Arrangements will require a trial period of 90 days or greater at the supervisor's discretion.
- Any approved flexible work arrangement may be cancelled without notice; however, the supervisor will endeavor to provide reasonable notice where possible;
- Flexible Work Arrangements must be requested and approved on an annual basis, with applicable request forms submitted by November 15th of each year, unless otherwise specified in the program details. All request forms will be reviewed and approved or denied by December 1st of each year.

8. Guidelines Regarding Attendance at Work

- 8.1.** The effective operation of the Township depends to a large extent on a sustained, safe and productive effort from all of our people. This commitment is demonstrated in large part by every employee's attendance at work. Excessive, unreported or unauthorized absences are grounds for disciplinary action, up to and including termination
- 8.2.** Unscheduled absences from work inhibit our progress and ability to successfully meet the day-to-day work obligations to our public, as well as increasing our operating cost and adding to the workload of fellow employees. Regular attendance at work is expected.
- 8.3.** The Township has important work to accomplish and expects high levels of performance from all of its employees. It is committed to promote and maintain high standards of attendance. The Township and its employees each have basic responsibilities to meet attendance objectives.
- 8.4.** The Township must have employees who are physically and mentally able to fulfill the essential duties of their jobs on a regular basis.

8.4.1. Every employee is expected to:

- be at work on time
- be interested in their own health and well-being.
- make every effort to live and work safely by following safety rules and procedures and practicing accident prevention both on and off the job
- attend to personal affairs and obligations outside of working hours. The retention of

one or two vacation days for such instances will help greatly in this regard.

- avoid allowing minor ailments and inconveniences to prevent attendance at work.
- make every effort to schedule doctor and dental appointments outside of working hours.

8.4.2. The Township is:

- responsible for providing a safe and healthy work environment and for promoting wellness among all employees.
- responsible for treating employees fairly and providing supervisory staff direction and assistance in order to maximize employee attendance.
- responsible for ensuring that Department Heads are available to provide guidance and to promote a consistent application of the attendance program across the organization.

8.5. Reporting and Recording Sick Leave

8.5.1. Employees are to call in personally as early as possible before starting time on each day of absence and are to speak directly to their supervisor and are not to leave a reason for their absence with a fellow employee. If the supervisor is not available at the time, the employee shall leave a message for the supervisor to return the call. If the supervisor is absent, the message is to be given to the next level of supervision. The supervisor will determine:

- when the employee expects to return.
- what work needs to be done during their absence.
- if anything can be done to help the employee who has called in sick

8.6. In cases of serious illness where an employee cannot speak on the phone another person may speak to the supervisor on their behalf. This provision is to be used only in exceptional circumstances.

9. Disconnecting From Work Policy

The Township of Blandford-Blenheim understands that due to work-related pressures, the current landscape of work, or the working environment, employees may feel obligated to perform their job duties outside their normal working hours. Work-related pressure and feeling an inability to disconnect from the job can lead to stress and deterioration of mental and physical health and overall wellbeing.

Employee health and wellbeing are priorities while working and away from work. The Township of Blandford-Blenheim is committed to improving overall employee health and wellness and providing employees with an improved work-life balance. This policy has been established to support employee wellness, minimize excessive sources of stress related to work or workload, and ensure that employees feel they can disconnect from their work outside their normal work day or hours, while outlining

exceptions to disconnection from work to maintain optimal service delivery.

“Disconnecting from work”:

Not engaging in work-related communications, including e-mails, telephone calls, video calls, or the sending or reviewing of other messages, so as to be free from the performance of work.

“Normal working hours”:

The time agreed to by an employee, as stated in their employment contract, when they are meant to complete work for Township of Blandford-Blenheim. The typical number of hours an employee is scheduled for in a work day. A normal work day varies by employee, position and/or department.

This policy applies to all Township employees. Due to the nature of their position, some employees are afforded flexibility in working hours, which may occasionally affect their normal work hours in a day. For example, an employee attends a personal appointment during their regular work day, but subsequently works past their normal end time to account for time spent at the personal appointment. For the purposes of this policy, the employee’s normal work day would be considered extended accordingly.

An employee’s time outside regular working hours is meant for the employee to recharge and spend as they wish and should not be used to complete work-related tasks; however, there may be a lack of separation between home and work that makes it difficult for employees to truly disconnect.

9.1. The following guidelines are followed to ensure employees are disconnecting from work:

9.1.1. Employees are entitled to disconnect from work outside regular working hours without fear of reprisal. All scheduled breaks should be taken and time off entitlements for non-work-related activities should be used each year. Employees are encouraged to set clear boundaries between work and their personal lives.

9.1.2. Disconnecting from work means that employees:

- Should stop performing their job duties and work-related tasks when they are not expected to work;
- Are not expected or required to respond to work-related communication outside their regular working hours, while on break, or during any paid or unpaid time off;
- Are encouraged to utilize their scheduled breaks and time off entitlements for non-work-related activities; and,
- Will not face repercussion or punishment for not communicating or for ceasing work.
- Employees must also respect others time to disconnect and should not expect others to respond, communicate, or complete work during their time off work.
- Where employees are required to work outside of their normal work day, they will be entitled to banked lieu time or overtime
- Employees who, on a regular basis, cannot manage their workload during their normal work day should meet with their direct supervisor/manager to evaluate their current workload, priorities, and due dates. Managers/supervisors will work with employees to

come up with a solution to ensure regular job duties can be completed during their normal work day.

9.1.3. Managers will work with employees to come up with a solution to ensure:

- The current workload does not result in the employee working excess hours and does not contribute to additional stress or burnout;
- Normal job duties can be completed during regular working hours; and
- Employees can remain productive and meet company goals and objectives.

9.2. Communication:

- 9.2.1.** Employees should not feel obligated to send or respond to work-related communication outside regular working hours.
- 9.2.2.** Employees must also respect others and avoid direct communication such as sending emails, messages (through their phone or other communication and messaging apps) or calling other employees or clients outside their regularly scheduled working hours, during breaks, or during an employee's time off, such as their regular day off or vacation time.
- 9.2.3.** The Township of Blandford-Blenheim employees may occasionally send general communication to employees when they are not working, such as on an employee's day off or scheduled vacation. If employees do send communications to others who are not at work, they should not expect a response until the other employee returns. Employees are not expected to respond to any company communication when not at work, with the exception of unforeseen circumstances, such as an emergency, or in relation to reasons outlined in the Exceptions section.
- 9.2.4.** The Township of Blandford-Blenheim has expectations regarding response times to phone, email and written communication, however, employees should recognize there is no organizational expectation of immediate response outside of an employee's normal work day, and they can disconnect at the end of their normal work day.

9.3. Exceptions:

- 9.3.1.** The Township of Blandford-Blenheim understands that employees may want or need to work outside their normal work day to meet a time-sensitive deadline, to attend to an urgent or emergency matter, or due to unforeseen circumstances; however, employees are not required to regularly or frequently work outside their scheduled hours to complete or catch up on work.
- 9.3.2.** Some employees are required to participate in an on-call/standby rotation. For the purposes of this policy, an employee being compensated to be on stand-by/on-call does not have the right to disconnect
- 9.3.3.** from work related to the reasons for being on-call (communication unrelated to being on-call may be addressed during normal working hours).

- 9.3.4.** Work- related communications that employees are expected to respond to outside of normal working hours include those related to shift scheduling, arrangements for off-shift meetings or arranging a return to work if employees have been out of the workplace for a period of time.

9.4. Breaks and Time Away from Work:

- 9.4.1.** Blandford-Blenheim Township understands the importance for employees to have time off away from work. Employees should use their annual vacation time for rest, relaxation and personal pursuits.
- 9.4.2.** Employees will never be obligated to complete work-related activities during scheduled time off. Knowing that, time management is the responsibility of employees and scheduled time off should not interfere with deadlines. At least one week in advance of a scheduled vacation, employees should discuss with their supervisor any job duties that need to be completed while the employee is on vacation. Managers/supervisors will work with employees to delegate job-specific duties that must be completed maintain workflow and productivity.
- 9.4.3.** Employees should not be reluctant to take vacation due to workload, unless there are limitations or restrictions because of a due date, project priority, scheduling conflict, unforeseen circumstance or other urgent operational need that prevent an employee from taking a vacation at a specific time requested.

9.5. Overtime:

- 9.5.1.** At times, Township of Blandford-Blenheim may have a business need that requires employees to work overtime. Overtime will always be approved and scheduled in advance, where possible. It may be requested by the employee or required in certain situations to ensure work is completed; however, employees should not work overtime unless directed by their manager/supervisor.

9.6. Productivity:

- 9.6.1.** Working additional hours does not always equate to higher productivity. Employees can maximize their productivity during their work day by using time management tactics, such as:
- Blocking off periods in their schedule and calendar to complete specific tasks or address communication;
 - Working with their manager to organize work in order of priority or importance;
 - Breaking down projects and tasks into manageable chunks;
 - Setting goals to work continuously for a specified period before taking a break or responding to communication.

9.7. Mental Health Support:

- 9.7.1.** The Township of Blandford-Blenheim recognizes that the workplace plays a significant role in managing and supporting mental health and understands that deterioration of mental health and wellness can be triggered by excess pressures at work or at home and

result in lowered work performance and harm to one's physical and mental condition.

9.7.2. The Township of Blandford-Blenheim will support mental health by:

- Minimizing work-related sources of stress;
- Addressing internal factors that contribute to burnout;
- Regularly assess workload, productivity, and expectations;

In this case up to a maximum of ten (10) days of vacation may be carried forward to the next ensuing year.

22.4. No cash payment in lieu of vacation time off will be made and all credits not used by the end of the current year and not carried over pursuant to Section 25.3 will be lost, subject to the requirements of the Employment Standards Act.

22.8. No more than two consecutive weeks of vacation can be taken at one time. However, if the vacation of other employees is not affected and efficient operation of the municipality can be maintained, a regular employee may, with the approval of the Department Head, be allowed to take a vacation that

is longer than two consecutive weeks. In spite of this provision no regular employee shall be allowed to take a vacation that exceeds four consecutive weeks unless there are extenuating circumstances and the CAO/Clerk or Council has approved.

- 23.5.** The Township believes that a conflict of interest exists if an employee of the Township of

Blandford-Blenheim lets their personal interests interfere with her/his job performance in serving the interest of the Township of Blandford-Blenheim. The Township expects that an employee of the Township would not accept or receive any gift whether in the form of money, services, loan, travel, entertainment, hospitality, promise or any other form under circumstances in which it could reasonably be inferred that the gift was intended to influence or reasonably be expected to influence the employee in the performance of their duties. The Township also expects that an employee will not engage in activities that will interfere with the employee's regular duties or are such that the employee has an advantage derived from employment with the Township.

- 23.6.** The Township recognizes that many employees, in their day-to-day activities as employees of the Township of Blandford-Blenheim, deal with items that are confidential in nature. In some instances, these items become so routine that employees tend to overlook the fact that information which seems insignificant to them may have serious implications if it is divulged, even to friends, relatives or fellow employees. Many Township employees, in their day-to-day activities, find out a great deal regarding the private affairs of Township citizens or other sensitive information. Employees are required to not divulge this information.
- 23.7.** Every employee who either directly or indirectly reports to the CAO/Clerk shall, as a condition of employment, confirm their acceptance of the Township's Code of Ethics, a copy of which is attached as Appendix "A" of this manual.
- 23.8.** A substantiated breach of the guidelines outlined above could lead to disciplinary action up to and including termination.

24. Employee Complaints and Conflict Resolution Policy

- 24.1.** This section applies to Regular Employees, Part-time Employees and Casual Employees.

Township of Blandford-Blenheim is committed to providing a workplace free of conflict, where employees are treated with fairness, dignity and respect. Matters of this kind should be discussed with the employee's supervisor. If a mutually satisfactory understanding is not reached, further steps towards a solution are provided and should be taken.

Under no circumstance should any employee fear discrimination or reprisal in the workplace as a result of the filing of a complaint.

- 24.2.** The following conflicts should be reported, and Township of Blandford-Blenheim shall strive to address them with reasonable resolutions:

- 24.2.1.** Disputes with co-workers or managerial staff with unwanted, and unresolved consequences.

24.3.2. Under ideal circumstances, the two parties shall reach a reasonable resolution without the necessity of the filing of a formal complaint.

24.3.3. In the event that a discussion is not feasible or fails to reach a reasonable resolution, a formal complaint may be filed.

24.4. Reporting:

24.4.1. Complainants should record the details of the unwanted circumstance(s), the names of any applicable witnesses, and any attempts made to resolve the issue heretofore.

24.4.2. Formal complaints stemming from unresolved employee or managerial conflicts shall be submitted in writing with any pertinent documentation, to a Department Head.

24.4.3. Formal complaints shall be reviewed and investigated.

24.4.4. Formal complaints must be submitted within 14 days from the date of the alleged incident(s).

24.4.5. In all cases where formal complaints have been lodged, it is important to maintain a policy of strict confidentiality between the complainant and the responder, the Department Head or CAO/Clerk. For investigative purposes, the offending party may be notified.

24.4.6. Anonymous complaints shall not be reviewed.

24.5. An Employee who is not satisfied with the decision made by their immediate supervisor may present the problem to their Department Head. If a mutually satisfactory understanding is not reached, further steps towards a solution are provided and should be taken.

- 24.9.1.** Shall be responsible for enacting preventative measures to ensure a workplace that is free from harassment, and for the communication of policy and procedures contained herein.
- 24.9.2.** Shall receive and address properly filed complaints in an appropriate fashion.
- 24.9.3.** In the event that the complainant and the offending party are engaged in a subordinate-supervisor relationship, they may be physically removed from each other on a temporary basis, and may require a change in their reporting relationship.
- 24.9.4.** Investigate, or co-investigate any complaints, claims and documentation therein.

25. Progressive Discipline Policy

25.1. This section applies to Regular Employees, Part-time Employees and Casual Township Employees

25.2. The purpose of this policy is to state the Township’s position on administering equitable and consistent discipline for unsatisfactory conduct in the workplace.

25.2.1. The purpose of disciplining employees is two-fold: first, as a teaching tool to correct inappropriate behavior or actions on the part of an employee and, second, as a punitive measure to reinforce appropriate employee behavior and actions.

25.2.2. The following sets out the discipline of employees. The action, or inaction, on the part of the employee must be reviewed to ensure that the discipline is appropriate to the occurrence, taking into consideration both the severity of the occurrence and the employee’s past history. The methods are guidelines, and within each method the sequence can be modified as a result of mitigating circumstances. Similarly, a step or steps of the sequence may be passed over due to unusual circumstances or action on the part of the employee, which would result in a more severe type of disciplinary action.

25.3. Disciplinary action may call for any of four steps including verbal warning, written warning, suspension with or without pay, or termination of employment depending on the severity, or the

problem, and the number of occurrences. There may be circumstances when one or more steps are bypassed.

25.3.1. Progressive discipline means that, with respect to most disciplinary problems, these steps will normally be followed: a first offence may call for a verbal warning, a next offence may be followed by a written warning, another offence may lead to a suspension, and, still another offence may then lead to termination of employment.

25.3.2. The municipality recognizes that there are certain types of employee problems that are serious enough to justify either a suspension, or in extreme situations, termination of employment without going through the usual progressive discipline steps.

25.4. Inappropriate Behaviour:

25.4.1. While it is impossible to list every type of behavior that may be deemed a serious offence, the following list includes examples of problems that may result in progressive discipline, suspension or termination:

- Theft or unauthorized removal or possession of municipal property
- Sending or transmitting material over a corporate computer or telecommunications system that contains information or content that is deemed to be offensive, vulgar, defamatory, discriminatory or threatening.
- Accessing internet sites at work which have obscene, hateful, pornographic, unlawful, violent or illegal material on them.
- Falsification of timekeeping records
- Working under the influence of alcohol or illegal drugs
- Possession, distribution, sale, transfer, or use of alcohol or illegal drugs in the workplace while on duty, or while operating employer-owned vehicles or equipment
- Fighting or threatening violence in the workplace
- Negligence or improper conduct leading to damage of employer-owned or customer owned property
- Insubordination or other disrespectful conduct including but not limited to bullying
- Violation of health and safety rules
- Smoking in prohibited areas
- Sexual or other unlawful or unwelcome harassment
- Possession of dangerous or unauthorized materials, such as explosives or firearms

in the workplace

- Excessive absenteeism/tardiness or any absence without authorization
- Unauthorized disclosure of confidential information
- Violation of personnel policies
- Unsatisfactory performance or conduct

25.4.2. By using progressive discipline, it is hoped that most employee problems can be corrected at an early stage, benefitting both the employee and the Township.

25.5. Steps:

25.5.1. Where there is concern about possible inappropriate conduct by an employee, the Director/Manager will first investigate, which usually means conferring with the employee and gathering information from all sources. A thorough investigation should be completed prior to assessing any discipline.

25.5.2. If the Director/Manager determines that a matter may require disciplinary action, the Director/Manager will schedule a meeting with the employee to discuss the matter. The employee is to be advised that disciplinary action is being considered and that the employee may have another employee attend the meeting with them. The Director/Manager may also seek such assistance as the Director/Manager considers necessary at the meeting including having an additional person attend the meeting with them.

25.5.3. The Director/Manager will give consideration to the information gathered during the investigation and the discussions at the meeting before deciding how to respond to the inappropriate behavior.

25.5.4. In some circumstances, it may be necessary to deal with the behavior immediately so the investigation should follow as soon as possible.

25.5.5. If, as a result of the investigation, the Director/Manager concludes that disciplinary action is required, the employee and the CAO/Clerk are to be notified. The employee and the CAO/Clerk are to be given a copy of any disciplinary document that is to be placed in the employee's file. An employee has the right to respond in writing to any discipline imposed and such response will be placed in the employee's file

25.5.6. Disciplinary action may include (but is not limited to) a verbal warning, a written reprimand, an unpaid suspension or dismissal.

25.5.7. Employees will have their past disciplinary record taken into account by the Director when determining an appropriate response.

25.5.8. While discipline is generally imposed progressively, the nature of disciplinary action will depend on the circumstances.

- 25.5.9.** An employee may face severe disciplinary action, up to and including dismissal, if the behavior warrants it, even if there was no past record of inappropriate behavior.
- 25.5.10.** When severe disciplinary action is being contemplated, approval must be given by the CAO/Clerk prior to any action being taken.
- 25.5.11.** In the case of inappropriate behavior by a Director or Manager, the CAO will conduct the investigation and meet with the employee. The CAO will ensure that the employee has the opportunity to have another employee attend the meeting. The CAO will also invite another person to attend the meeting if the discipline is suspension or termination.
- 25.5.12.** Should discipline involve the CAO, then the Mayor and the Mayor's alternate will meet with the CAO to discuss the issue as required. An investigation will be carried out by an independent third party (i.e., Human Resources representative from the County of Oxford or a Human Resources consultant) who will report to the Mayor with their findings.

37. Workplace Hazard Identification Policy

37.1. Township of Blandford-Blenheim has adopted this policy to ensure that all workplace hazards are identified and controlled appropriately. These measures have been taken to ensure the ongoing health and safety of our staff.

37.2. “Hazard”

Is defined as an occupational hazard is a thing or situation with the potential to harm a worker. Occupational hazards can be divided into two categories: (1) Safety hazards that cause accidents that physically injure workers; (2) Health hazards which result in the development of disease. It is important to note that a "hazard" only represents a potential to cause harm. Whether it actually does cause harm will depend on circumstances, such as the toxicity of the health hazard, exposure amount, and duration. Hazards can also be rated according to the severity of the harm they cause - a significant hazard being one with the potential to cause a serious injury or death.

37.3. To reduce the potential for injuries at Township of Blandford-Blenheim, we will conduct a hazard assessment of all work areas and work processes. During the workplace hazard assessment, Township of Blandford-Blenheim will work to identify potential hazards that exist in work areas, processes and procedures.

37.4. Township of Blandford-Blenheim employees are required to report any workplace hazards to their supervisor or Department Heads.

37.4.1. Where a hazard is identified, Township of Blandford-Blenheim shall work to determine the possibility of any injuries caused by the hazard, and the level of risk associated with the hazard.

37.4.2. Where a hazard creates dangerous working conditions, the work shall be halted until such time as it may be controlled effectively.

37.4.3. Township of Blandford-Blenheim shall address and resolve workplace hazards using appropriate controls either at the source of the hazard, between the source and the worker, or at the worker.

37.4.4. Where possible, Township of Blandford-Blenheim shall strive to control hazards at the

source. Township of Blandford-Blenheim shall determine appropriate safe work procedures and practices, and provide training and education in safe work practices, policies and procedures.

37.5. Risk:

Is defined as the hazard posed by some material or situation is its potential to cause harm. Risk is the probability, or chance, that a hazard will actually harm someone.

37.5.1. Removing occupational hazards is only one way of improving worker protection. A more practical approach to the limitation of occupational hazards is the control or management of the risks that hazards pose.

37.5.2. Sometimes, in addition to the probability of a hazard causing harm, risk includes a consideration of the seriousness of the hazard.

37.5.3. The consequences of exposure to some hazards may be so harmful that, even if there is little chance of a worker being exposed, the risk is so great that extreme precautions must be taken to prevent even that small possibility.

37.6. Hazard:

Is defined as the term "hazard" refers to the potential to cause harm. In the case of a workplace health hazard, the harm is to a worker's health and usually takes the form of an injury or illness.

37.6.1. There is a three-step process for dealing with workplace hazards:

- Identify – Report any workplace hazards to your immediate supervisor. Recognition involves both identifying a hazard and determining if there is a possibility of workers being affected by it. If there is such a possibility, it must be assessed and if it is found to be significant, the hazard must be controlled. Employees are required to report any workplace hazards to their immediate supervisor immediately, to reduce the dangers to all other employees.
- Assess – Determine the level of risk associated with the hazard. Discontinue work in the event that a workplace hazard creates excessive and dangerous work conditions.
- Control – Township of Blandford-Blenheim will use all elements available to address and resolve dangerous workplace hazards. Control can be applied at the source of the hazard, along the path between the source and the worker, or at the worker. Control at the source is preferred.

37.7. Where a workplace hazard is identified, Township of Blandford-Blenheim shall utilize the following process to ensure workplace safety:

37.7.1. Step 1: Engineering Controls – Where possible, hazards shall be eliminated or mitigated through engineering controls, including either the substitution of hazardous materials, work processes or equipment used with less hazardous options, the isolation of hazardous work to physically remove the worker from the hazard, or through ventilation of the area.

37.7.2. Step 2: Design of Safe Work and Hygiene Practices– Township of Blandford-Blenheim shall design safe work practices that provide guidelines for working safely with workplace hazards, and limit exposure to hazards.

37.7.3. Step 3: Administrative Controls – Township of Blandford-Blenheim shall employ administrative controls, including job rotation schedules, work-rest cycles and timing of maintenance procedures to limit the amount of time that workers are exposed to hazards.

37.7.4. Step 4: Personal Protective Equipment – Where appropriate, PPE that is designed to reduce, or eliminate a hazard shall be provided.

37.7.5. Step 5: Education and Training – Township of Blandford-Blenheim will provide staff with the appropriate training and education in safe work practices, and working with or near identified workplace hazards.

37.8. Township of Blandford-Blenheim will take every reasonable precaution in the circumstances to protect workers; this may include requiring them to wear personal protective equipment through the course of their job duties. See Personal Protective Equipment (PPE) Policy.

Is defined as an inspector under the Occupational Health and Safety Act who is appointed as a director.

38.4. “Inspector”

Is defined as an inspector appointed under the Occupational Health and Safety Act, including the director.

38.5. “Medical attention”
